

Suresh Pandita

Director of Business Development and Sales

thyssenkrupp nucera USA Inc.

Suresh Pandita is the Director of Business Development and Sales at the USA entity of thyssenkrupp nucera in Houston.

Suresh holds a degree in Chemical Engineering and has more than 23 years of professional experience in sales, proposals and business development.

Before joining thyssenkrupp nucera in 2008, Suresh gained valuable experience working for an EPC company involved in the development of large-capacity thermal and cogeneration power plants, as well as industrial water treatment plants. Prior to that, Suresh was based in Tokyo, where he successfully led the Electrolysis Revamp business for thyssenkrupp nucera Japan in the Asia Pacific region.

In 2012, Suresh embarked on a job rotation assignment with thyssenkrupp nucera Germany, where he dedicated over three years at their Dortmund office. During this time, he spearheaded electrolysis project sales and business development in the European region. Since his return from India in 2016, Suresh has remained closely connected with Indian chlor-alkali customers, catering to their requirements for new plant setups or modernizing existing production facilities.
