

thyssenkrupp nucera Awarded EcoVadis Gold Medal for Sustainability

- With 82 out of 100 possible points, thyssenkrupp nucera receives a Gold rating from EcoVadis, one of the world's leading providers of sustainability ratings
- This score places thyssenkrupp nucera among the top five percent of companies evaluated globally over the past twelve months
- EcoVadis assesses sustainability performance across four categories: Environment, Labor & Human Rights, Ethics, and Sustainable Procurement

Dortmund, September 09, 2025 – thyssenkrupp nucera, a global leader in electrolysis technologies, has been recognized for its outstanding sustainability efforts, receiving the Gold Medal from EcoVadis. With a score of 82 out of 100, thyssenkrupp nucera ranks among the top five percent of all organizations assessed worldwide over the past twelve months.

EcoVadis, a renowned provider of sustainability ratings, evaluates the current status of a company's sustainability performance across four key areas: Environment, Labor & Human Rights, Ethics, and Sustainable Procurement. thyssenkrupp nucera achieved strong results in all categories, with the area of Labor & Human Rights receiving particular praise from EcoVadis.

"Sustainability is deeply embedded in thyssenkrupp nucera – through our electrolysis technology and our corporate actions. Receiving the Gold Medal from EcoVadis is a major milestone and a strong affirmation of our commitment and engagement," says Dr. Werner Ponikwar, CEO of thyssenkrupp nucera. "We will continue to actively contribute to a better future and pursue our own sustainability goals with determination."

"This excellent rating clearly shows where we currently stand in terms of sustainability. It provides our stakeholders with transparent insight into our performance," says Dr. Stefan Hahn, CFO of thyssenkrupp nucera. "At the same time, it signals that we are a reliable partner in the transformation toward a sustainable industry."

Since 2007, EcoVadis has assessed more than 150,000 organizations based on international sustainability standards. Organizations are awarded Bronze, Silver, Gold, and Platinum medals based on their performance.
